PROFESSIONAL EXCELLENCE
(CAPE)**

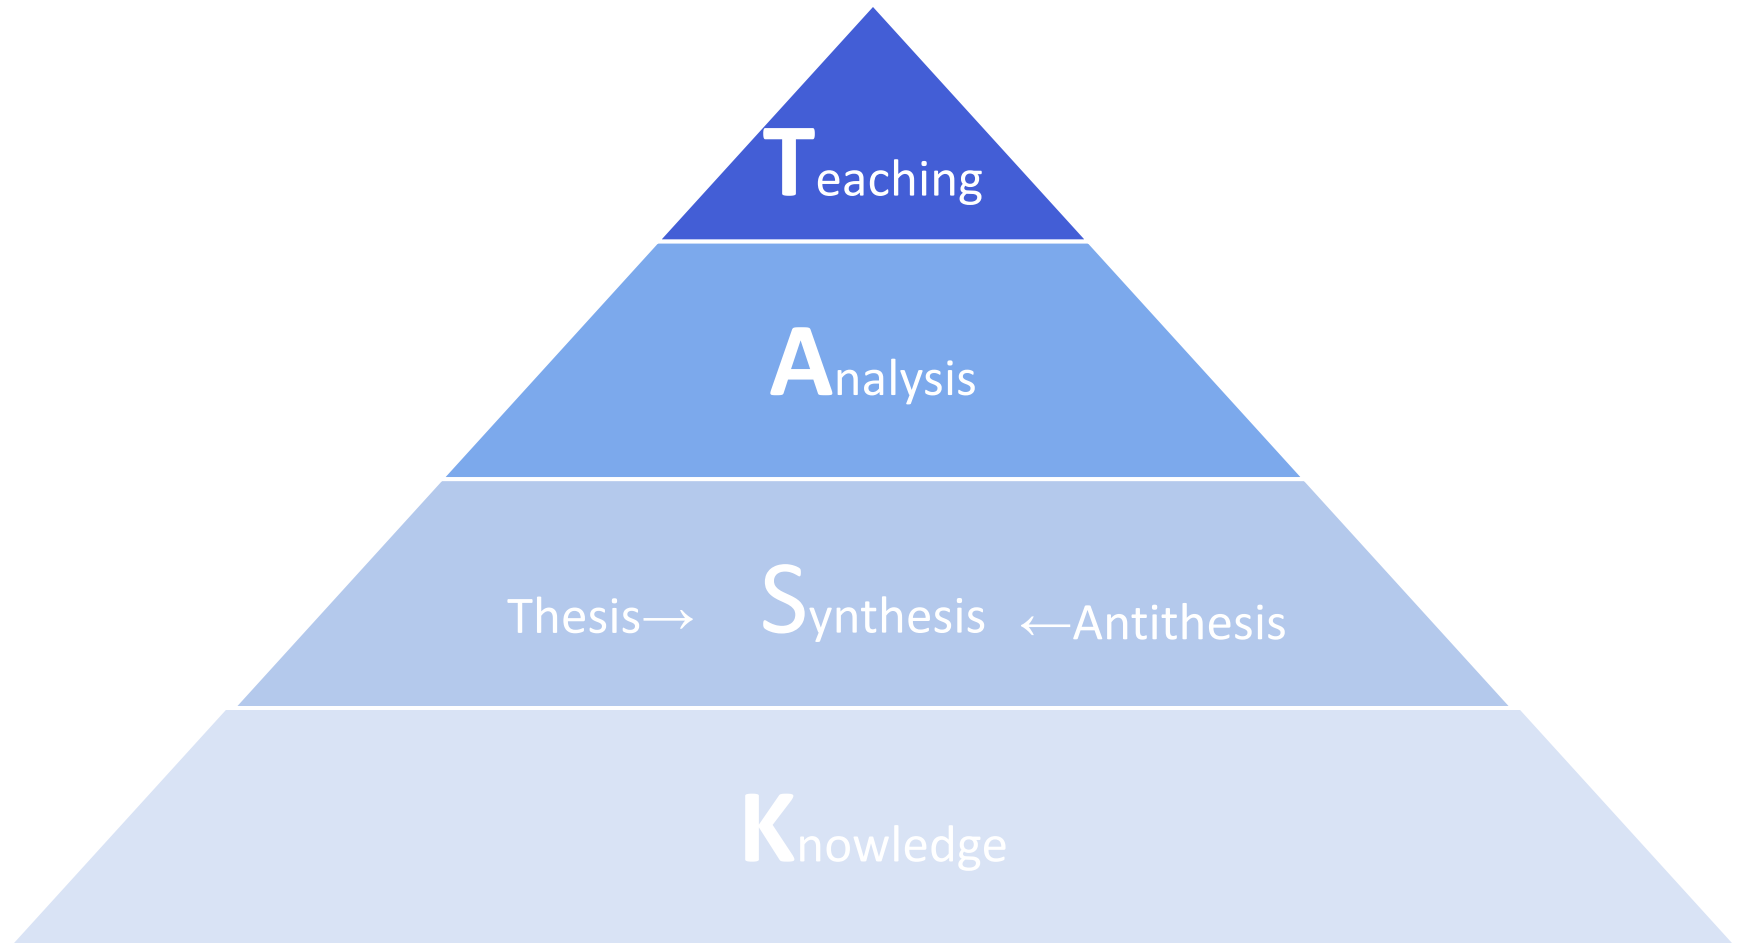

**FOSTERING NSU'S CORE VALUES OF
ACADEMIC EXCELLENCE, SCHOLARSHIP, AND
LIFELONG LEARNING
IN FACULTY AND STAFF**

MISSION

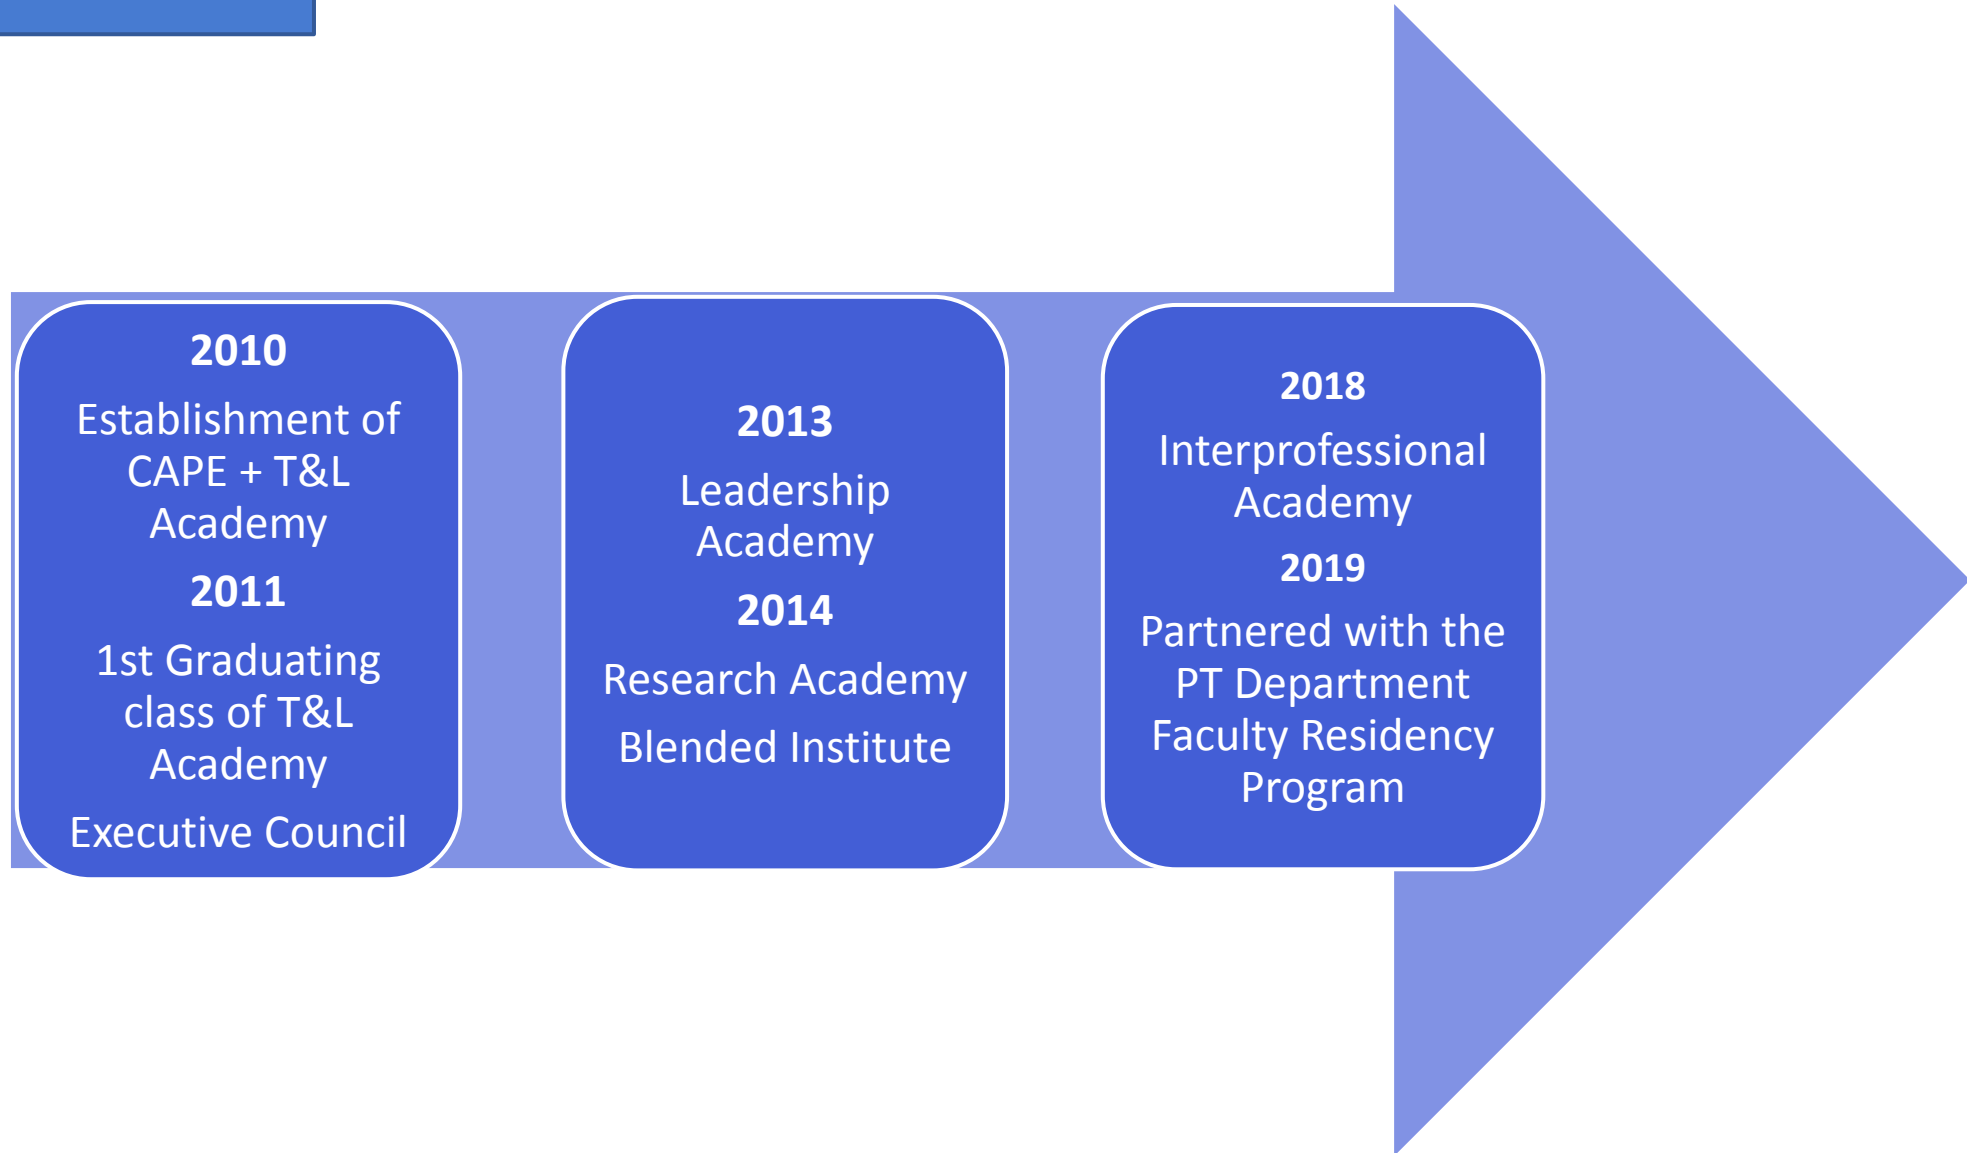

To encourage, enlighten, and experience professional growth through participation in continuing education and structured programs, as well as the use of evidence-based resources.

TEACHING: THE HIGHEST FORM OF LEARNING

T.A.S.K LEARNING PYRAMID

TIMELINE

CENTER FOR ACADEMIC & PROFESSIONAL EXCELLENCE

1. The Teaching and Learning Academy

The Art and Science of Teaching and Learning

The Blended Learning Institute

Tech Tools - a four-week course that is immensely popular

Integrating Interprofessional Collaboration in your course

2. The Research Academy

Evidence Based Practice

Step into Research

3. Leadership and Management Academy

Conflict Prevention and Management

Leadership and Management Advancement

4. The Academy for Career Enrichment (ACE) for administrative staff

Delivery: Online hybrid model with both synchronous and asynchronous sessions. Some f2f sessions.

CENTER FOR ACADEMIC & PROFESSIONAL EXCELLENCE

Future

In 2023 in partnership with the HPD Research Committee, CAPE developed a series of research courses to meet the needs of faculty.

Becoming a Research User and Producer: Part 1 (initiated Winter 2024)

Becoming a Research User and Producer: Part 1 (initiates Spring 2024)

Evidence-based Practices: Application to Education (Initiates Summer 2024)

Statistics: Making Sense of the Numbers and Creating Your Own (Fall 2024)

Mentored Research Program (in development)

In development is the non-tuition, voluntary, self-paced 4-module course – Artificial Intelligence for students in the Health Profession Division.

DIVERSE PARTICIPANTS AND FACULTY INTERPROFESSIONAL

Management

– faculty participants of different professions pair to discuss and apply theoretical models

The students (faculty) of the CAPE Academies: AA, ATC, Aud, Ed, CJ, DO, ESS, HS, OT, Pharm, PT, PA, RN, RT, Sonography (medical and cardiovascular), SLP, and U-School (K-12 faculty).

The faculty (Instructors) come from various NSU programs such as Business, Education, and Health Science as well as other universities across the country.

It is this diversity that makes the CAPE experience valuable and enriching.

Faculty and Staff CAPE Graduates return as instructors of the CAPE courses.

OUTCOME

TESTIMONIAL-FRED DICARLO, ED.D, SLP,CCC

This course and the professors who guided me diligently and creatively facilitated my ability to complete and publish a research project. I do not believe this would have happened without their assistance. **My advice is if you want to do research, publish, attain grants, and/or just need a research “tune up”, enroll in the CAPE Research Academy.**

TESTIMONIAL- JENNIFER BENZIK, MHA.,RRT

The CAPE courses have provided me with the tools to enhance the methods in which I deliver content to my students, while ensuring I have clear and defined objectives that can be measured accurately. I have learned how to utilize technology to reinforce lab competencies without requiring additional classroom time from the students.

CAPE is constantly growing and changing as the needs of our faculty and staff change, and I know I will continue to grow as a professor thanks to the knowledge I have been privileged to obtain from CAPE.

TESTIMONIAL-LONETTE SPENCE, DHSC, RVT

In August of 2011, I was a new faculty member, and I took the Teaching and Learning Course. The course was interesting, the instructors made it engaging. It has been seven years, and the Teaching and Learning Course helped me discover my teaching style and learn teaching methods which have helped me successfully integrate into my position as assistant professor.

TESTIMONIAL-HEATHER SAIFMAN, PH.D, RN

As a participant, CAPE courses (TLA/LMA) have provided me with the opportunity to develop my scholarship of teaching; as faculty, that growth has expanded to include opportunities to work with an interprofessional team of scholars. For me, the value is twofold: in the collegiality embedded in the CAPE culture, and in the unique opportunity for ongoing professional development.

TESTIMONIAL- JACQUELINE REESE-WALTER, PHD, OTR/L, CHT, CEAS II

The information that I learned in the Teaching and Learning Academy helped me transition from a full-time clinical position to a full-time faculty position. The course really helped me understand the various aspects of academic duty and deepened my knowledge about learning preferences and teaching approaches. Perfect course for a new educator!
